

# PHOTO HAS BEEN REMOVED

collected, curated and sequenced by Adam Parrish  
[adam@decontextualize.com](mailto:adam@decontextualize.com)

Tuesday, April 5, 2011

These fragments are the result of running images from Yfrog through an OCR algorithm (tesseract). Each line of text links to the image that generated it. Only images that resulted in at least one English word of four or more characters are included.

The images were collected from the Twitter Streaming API on the evening of April 4th, 2011.

Created for National Poetry Month. See <http://filthyditty.posterous.com> for more projects.
